EDUCATION

Ho Chi Minh city, Vietnam **International University - VNU HCMC** **Sep 2018 - Present**

- B. S. in Computer Science, major: Software Engineering. Currently a 3rd year student.
- Current GPA (up to 3rd year, 1st semester): 3.10 / 4.00.
- Expected graduation date: Sep 2022.
- Courses: Algorithms & Data Structures, Object - Oriented Programming, Principles of Database Management, Software Engineering, Math (Calculus, Probability, Statistics).

TECHNICAL EXPERIENCE

Projects

Developer **Wholesale Management System** **Late 2020 - Early 2021**

- **GitHub:** github.com/minhlong94/SWE_IT076IU
- Used Streamlit to create a web-based management system.
- **Tech stack:** Python, SQLite.

Competitor **Kaggle** **Mid 2020 - Present**

- Joined competitions: [kaggle.com/aeryss/competitions](https://www.kaggle.com/aeryss/competitions)
- Joined some Kaggle competitions.
- **Tech stack:** Python, Pandas, PyTorch/TensorFlow, PyTorch, CatBoost.

Developer **Rental System** **Mid 2020**

- **GitHub:** github.com/minhlong94/KotlinOOAD
- Analyzed the requirements and built a rental system.
- **Tech stack:** Kotlin.

Developer **Linear & Polynomial Regression** **Late 2019**

- **GitHub:** github.com/minhlong94/Linear-and-Poly-Regression
- Implemented the regression algorithms using NumPy and SciPy.
- **Tech stack:** Python, NumPy, SciPy.

ADDITIONAL EXPERIENCE

- Coursera's Deep Learning specialization (2020): [my certificate](#).
- Coursera's Natural Language Processing specialization (2020): [my certificate](#).
- IELTS Academic (Issued 2016 - Expired 2018): overall 6.5.

SKILLS

- Proficient: Java/Kotlin, Python.
- Familiar: C, JavaScript, MySQL/SQLite, HTML/CSS/JS, Git.
- Frameworks/Tools: TensorFlow/PyTorch, Pandas, visualization tools (matplotlib, seaborn).
